5. AGENDA REVISIONS, AND SUBMISSION OF DOCUMENTS, AND MOTIONS TO DIRECT THE CITY MANAGER TO ADD AGENDA ITEMS TO FUTURE AGENDAS

Mayor Peck asked for a motion to discuss if Council should continue to meet in-person or consider returning to virtual meetings due to the COVID pandemic and increased cases and variants.

MOTION

Susie Hidalgo-Fahring moved, seconded by Shiquita Yarbrough, to discuss returning to virtual meetings

Council discussed the motion and asked staff if returning to virtual was a burden and Sandra Seader, Assistant City Manager, replied that a person had been hired to help with virtual meetings specifically and that staff is prepared if Council decided to return to virtual meetings.

Council also discussed the motion in light of health and safety concerns related to the ongoing pandemic and asked Sandra if staff had tested a hybrid virtual meeting. Sandra indicated that staff had done some testing and while either entirely in-person or virtual is preferred, staff had tested and would be able to again offer virtual public participation if Council directed. A third, and more challenging scenario, would be if a Council Member were virtual while meetings were being held in-person but Sandra indicated that staff had tested that and could likely accommodate if that were Council's direction.

Approved: Susie Hidalgo-Fahring, Marcia Martin, Joan Peck, Tim Waters, Shiquita Yarbrough

Dissented: Aren Rodriguez

Abstained: None

Carried: 5 – 1

MOTION

Tim Waters moved, seconded by Marcia Martin, to direct staff to return to virtual meetings for Council and public comment

MOTION

Susie Hidalgo-Fahring moved, seconded by Marcia Martin, to direct staff to bring back options for creating a formal program or task force to address the need for workforce housing, to set goals and collect data, as a continuation of work already in progress regarding high density land use

Council Member Martin offered a 'friendly amendment' that was accepted by the mover to include a clause that says the work of this group would be a continuation of work already in progress regarding high density land use.

Council then discussed and clarified their hope that this group might help look for ways to recommend a target and figure out where current codes are falling short as well as to help determine if certain types of housing stock were needed more than others and how much of that particular stock would be needed to augment the inventory.

Council further discussed that the group should also help identify biases in systems and practices and clarified that the direction was for staff to propose the make up of the task force and provide options to Council.

Approved: Susie Hidalgo-Fahring, Marcia Martin, Joan Peck, Aren Rodriguez, Tim Waters, Shiquita Yarbrough

Dissented: None

Abstained: None

Carried: 6 – 0

6. CITY MANAGER'S REPORT

A. Update on COVID-19

Harold Dominguez, City Manager, shared his weekly update of the various metrics related to the number of COVID cases, transmission and vaccination rates, hospital statistics and trends in all of these in age and ethnicity groups. He noted that Lab staff had reached out to the State about a way to test for the Omicron variant, said though the newest variant had not yet been detected in Colorado, it was likely present and reminded everyone to continue with safety measures that are in place and to get a flu vaccine.

7. SPECIAL REPORTS AND PRESENTATIONS

A. Air Quality And Oil And Gas Update

Dr. Jane Turner, Oil and Gas and Air Quality Coordinator, provided a brief review of oil and gas activity and noted there are no active wells in the City and the last two were plugged in 2021; shared that the new 2000 foot setback would protect the City from future drilling except for a few small areas that would be logistically difficult to drill; and described the current activities at the Knight Wells north of Union Reservoir and the monitoring of those done by the State and the City.

Council asked Dr. Turner about methane emissions and she explained that spikes of methane are noted by air quality monitoring and that the City is participating in rulemaking for air quality and sharing our data.

Council suggested providing a public session that would give the public a chance to ask Dr. Detlev Helmig their questions about air quality and emissions.

Harold Dominguez, City Manager, noted that Council's existing direction was to receive quarterly updates on air quality and staff would need direction from Council if a change was desired.

Dr. Detlev Helmig, then provided a detailed presentation about the City's Air Quality Study, provided an update on the new air quality monitoring site and updates on the data collected this quarter. Dr. Helmig's presentation provided detailed information regarding the ozone, particulate matter, methane, ethane and benzene emissions. He discussed possible sources of methane emissions from area meat producing facilities, a couple recent events of elevated methane emissions likely from the Knight wells, an acetylene spike at Union that was likely from flaring of oil and gas wells, and about the impacts of wildfires in 2021 that contributed high amounts of particulates and drove high ozone levels.

Council thanked Dr. Helmig for the presentation and update.

8. FIRST CALL - PUBLIC INVITED TO BE HEARD

Various residents, members, and supporters of a newly formed group called 'Prosper Longmont' spoke to Council about the critical need for workforce attainable housing for workers, noting the close relationship between workers' ability to find housing where they work and employee turnover, and shared that the group stands ready to help work on this issue for the benefit of the entire community. Members who spoke to Council were:

- Eric Wallace, 339 Pratt Street, Left Hand Brewing and organizer of Prosper Longmont
- Lonnie Cramer, 1859 Marquette, President of Longs Peak Hospital
- Aparna Palmer, 2190 Miller Drive, Vice President of Boulder Campus of Front Range Community College
- Joni Lynch, 19 Bruce Place, Family Resource Director at the OUR Center
- John Creighton, 328 Pratt Street, High Plains Bank
- Joe Thompson, 2430 Calais Drive, resident and small business owner
- Hermine Ngnomire, 524 Flicker Avenue
- Ann Marie Jensen, Director of East County Housing Opportunity Coalition

Polly Christensen, 410 Judson Street, advised Council to refer to the inclusionary housing report they received on May 4 which includes goals, deficits and everything asked for and commented that though Prosper Longmont promotes itself as a housing advocacy group, it is a lobbying group funded through the Longmont Economic Development Partnership. She concluded noting that the greatest housing need is for those making 40% AMI or less and said that preferencing white people over poor people is a grave mistake.

Council Member Waters shared concerns echoed generally by other Council Members about the County's inability to run the election despite knowing in advance of the coming re-districting process, and pointed out that candidates ought to have the option to not force a special election due to the costs to the taxpayers.

Mayor Peck noted that a charter amendment could resolve this but would have to be approved by the voters.

Council Member Martin suggested that a charter amendment was needed as well to adjust the date when newly elected council members are sworn in to take place after election results are certified.

Council then discussed the desired timing of the special election and weighed the options of waiting until November when an election could be coordinated by the County and holding one sooner with a vendor, and noted their preference to get things done as soon as possible.
